## IMPORTANT NOTE

I have graduated in 2013, but have not had a chance to work right after graduation, nonetheless, I learned that despite the many challenges we might face in life, we shall never give up on our dreams, and shall work hard to bring them to reality. I am keen to learn and establish a career that will provide me with experience and knowledge. With zero experience, I am confident that my hunger for knowledge and practice will be my inspiration to learn fast and excel in my duties. With my enthusiasm driving me, I shall work hard and accept nothing but success for both my employer and myself.
